CERTIFICATIONS & EDUCATION

Security+ (SY0-701) — **COMP001023128111** — *CompTIA* Sep 2026

Bachelor of Science, Computer Science — *University of Hawai‘i at Mānoa* Dec 2022

SKILLS

Operating Systems: Linux/Unix (CLI, permissions, shell utilities), Windows, macOS

Networking & Security: Hardware troubleshooting, software troubleshooting, networking protocols, access control (RBAC), OAuth 2.0, packet analysis, security hardening

Programming: Java, C, JavaScript, SQL, HTML/CSS

Tools & Platforms: Git/GitHub, GitHub Desktop, Wireshark, VS Code, REST APIs, MongoDB, Agile/Kanban

Professional: Technical support, stakeholder communication, documentation, training & onboarding, vendor coordination, bilingual (Chinese – Cantonese/Mandarin)

TECHNICAL PROJECTS

Spotify Profile — Secure OAuth Web App | *Next.js, NextAuth, Spotify API, Tailwind CSS* Oct – Nov 2023

- Engineered a secure web application implementing OAuth 2.0 authorization flows with NextAuth, including automated token refresh logic to maintain persistent authenticated sessions
- Enforced strict client-side error handling and request sanitization to mitigate malformed input and unauthorized API access

GHG Tracker — Data Analytics Platform | *React.js, JavaScript, Framer Motion* Jan – May 2021

- Co-led front-end development of a platform tracking daily vehicle emissions across Hawai‘i; optimized component rendering with React Hooks to reduce page load times
- Partnered with Hawaiian Electric Industries executives through recurring reviews to gather requirements, communicate progress, and manage scope changes for non-technical stakeholders

Gruhb — Full-Stack Campus Vendor Platform | *Meteor, React.js, MongoDB* Nov – Dec 2020

- Implemented role-based access control, input validation, and protected routing to restrict privileged functions to authorized accounts; executed functional testing across user roles
- Maintained code integrity with Git version control and managed sprint cycles using Agile Kanban methodologies

PROFESSIONAL EXPERIENCE

H & L Construction and Development, Inc. — *Contractor* Jan 2025 – Present

- Served as primary point of contact across the full project lifecycle, translating technical constraints into clear updates on progress, risks, and scope changes for non-technical clients
- Drafted proposals and cost estimates and managed supply chain logistics, sourcing materials and coordinating vendors to keep multi-phase builds on schedule

Dean & DeLuca Hawai‘i — *Acting Assistant Manager / FOH Associate* Mar 2020 – Dec 2024

- Oversaw daily front-of-house operations, cash drawer reconciliation, and regulatory compliance, resolving escalated customer and system issues in a high-volume environment
- Trained new manager and staff on operational workflows, POS procedures, and safety protocols; authored process guidance and supported candidate screening and onboarding

Moomin Shop Hawai‘i — *Sales Associate & POS Systems Support* Aug 2018 – Mar 2020

- Collaborated with management to configure and test POS system interface layouts, improving transaction throughput and reducing checkout errors
- Monitored inventory levels and conducted physical stock audits, reconciling system records against physical counts to resolve data discrepancies
